PROFILE

HNDIT undergraduate at SLIATE with hands-on experience developing web and desktop applications using React.js, ASP.NET Core Web API, C#, Java, SQL Server, HTML, CSS and JavaScript. Developed academic projects including a full-stack e-commerce application with authentication, product management, payment functionality and an admin dashboard. Seeking a Software Engineering Internship to apply my technical skills, gain industry experience and contribute to real-world software development projects.

SKILLS

Programming Languages

Java
C#
JavaScript
SQL

Frontend Development

HTML
CSS3
React.js

Backend

ASP.NET Core Web API

Databases

SQL Server
MySQL

Development Tools

Visual Studio
Visual Studio Code

Concepts

Object-Oriented Programming
REST APIs
CRUD Operations
Database Design
Authentication

Soft Skills

Teamwork
Communication
Problem Solving
Time Management

PROJECTS

Sports Equipment E-commerce Web Application

04/2026 – 07/2026

Full Stack Web Application

Built a full-stack Sports Equipment E-commerce web application called Sport Vault using React.js and ASP.NET Core Web API with SQL server database, featuring user authentication, product management, payment processing and an admin dashboard.

Accounting Management System (Group Project) Developed an Accounting Management System as a group project to manage financial records such as income, expenses and reports. The system also includes a stock management feature to track available items and update stock levels. The application was built as a desktop system with a database for efficient storage and management. This project improved my skills in software development, database and teamwork.	03/2025 – 06/2025
Saloon Website <i>Frontend Web Project</i> Created a responsive salon website using HTML, CSS and JavaScript. The project focuses on presenting salon services and information in a simple and user-friendly design. This project helped improve my fronted development and UI design skills.	08/2024 – 01/2025
Snake Game <i>Java Application</i> Built a simple 2D snake Game using Java. The game includes score tracking, movement control and collision detection. This project improved my understanding of object oriented programming concepts and basic game development logic.	03/2025 – 05/2025

EDUCATION

Sri Lanka Institute of Advanced Technological Education (SLIATE) <i>Advance Technological Institute</i>	2024 – Present Dehiwala, SriLanka
GCE Advanced Level (A/L) <i>Arafa National School</i> Stream : Technology	2020 – 2022

CERTIFICATES

Web Design for Beginners University of Moratuwa	Figma UI/UX Design Course Alison
